Nazeem Massoom Dickey

JUNIOR NETWORK ADMINISTRATOR | SOC ANALYST | IT SUPPORT

Boynton Beach, FL · NazeemDickey@gmail.com · MASTERNAZZ.COM · linkedin.com/in/nazeemdickey · github.com/nazz-d

PROFESSIONAL SUMMARY

IT professional and homelab engineer with CompTIA A+, Net+, Sec+, CySA+, EC-Council EHE/NDE, Cisco CCST, and 6x Microsoft fundamentals credentials. Operates a production-grade homelab: 3-node Proxmox cluster, OPNsense with Suricata IDS/IPS, Wazuh SIEM/XDR, Authentik SSO, and zero-trust remote access on real enterprise hardware. SkillsUSA Florida State Champion — Internetworking, 1st Place (April 2026). Targeting Junior Network Administrator, SOC Analyst, NOC, MSP, and IT Support roles. Detailed technical documentation and project diagrams are available at my portfolio: **masternazz.com**.

KEY ACHIEVEMENTS

APRIL 2026
SkillsUSA FL State Champion — Internetworking, 1st Place

UPCOMING — ATLANTA, GA
SkillsUSA National NLSC — Internetworking Competitor

MARCH 2026
CompTIA Trifecta (A+, Net+, Sec+) achieved within three weeks

APRIL 2026
CyberLaunch State Competition Participant

WORK EXPERIENCE

Freelance IT Technician
June 2024 – Present

Self-Employed · Boynton Beach, FL

Remote and on-site support via RustDesk; diagnosed hardware failures and network issues for residential and small business clients.
Deployed PC builds and camera systems; documented issues and resolutions with clear client communication.

IT & Event Logistics Volunteer
June 2024 – January 2026

Center for Child Counseling · Palm Beach, FL

Managed inventory tracking, supply distribution, and event logistics for community programs.
Delivered customer-facing support and activity coordination; consistently received positive feedback for professionalism.

PROJECTS — MASTERNAZZ.COM HOMELAB (SELF-DIRECTED)

Enterprise Virtualization Cluster
Proxmox VE · LXC · Cisco · Synology

3-node Proxmox VE cluster running 22 VMs/LXCs on enterprise hardware. Configured Cisco PoE switching, Ubiquiti wireless, and 3-2-1 backup strategy (PBS + Synology NAS).

OPNsense Edge Firewall & Network Segmentation
OPNsense · Suricata · VLAN · DNS · ACME

Bare-metal OPNsense with VLAN segmentation, Suricata IDS/IPS (WAN netmap), AdGuard Home DNS, and ACME wildcard cert automation via Cloudflare DNS-01.

Zero-Trust Remote Access Architecture
Headscale · Tailscale · Cloudflare Tunnel · DMZ

Self-hosted Headscale/Tailscale mesh for admin access; public services via Cloudflare Tunnel in VLAN 50 DMZ — zero inbound WAN ports open.

SIEM / XDR Deployment with Wazuh
Wazuh · Suricata · FIM · Log Management

Wazuh SIEM/XDR ingesting logs from Linux LXCs, Windows, Suricata, and Authentik. File integrity monitoring, alert correlation, and SOC-style triage workflow.

EDUCATION

SouthTech Academy
January 2025 – Present · Boynton Beach, FL

3.5 GPA · Honor Roll · Honors Classes · Esports Team Captain

TECHNICAL SKILLS

Networking: TCP/IP, OPNsense, VLANs, Suricata IDS/IPS, DNS, DHCP, Headscale VPN, Cisco IOS, Firewall Config

Security: Wazuh SIEM/XDR, FIM, Log Analysis, Alert Triage, IDS, Vulnerability Detection

Support: Help Desk, RustDesk Remote Support, Technical Documentation, Escalation Handling

Systems: Proxmox VE, Linux, Windows, LXC, Docker, NAS, Backup Strategies, Hardware Troubleshooting, PC Assembly

Cloud & Identity: Microsoft Azure, Authentik SSO/OIDC, Google Workspace, Cloudflare, Access Control

Tools: Git, ACME/Let's Encrypt, AdGuard Home, NPMplus, Cloudflare Tunnel
